MAXIMUM IMMUNITY PROTECTION

# HOW GOOD IS YOUR IMMUNE FUNCTION?

STRENGTH OF YOUR IMMUNE FUNCTION IS A RESULT OF YOUR LIFESTYLE

Weakened Immune System

Signs:

- You exhibit signs of illness more often
- Your wounds heal much slower
- Your stress levels are much higher than normal

Strong Immune System

Signs:

- You are ill less frequently
- You recover from illness faster than usual
- You have a higher level of energy throughout the day

# WHAT WEAKENS YOUR IMMUNE SYSTEM

BAD HABITS

JUNK FOOD

STRESS

SLEEP HABITS

AGE

SLOW RECOVER  
FROM INJURY

DISEASE

ALLERGIES AND  
INTOLERANCES

# SIGNS OF WEAKENED IMMUNE SYSTEM

- INCREASED FATIGUE
- IRRITABILITY, ANXIOUSNESS, SAD MOOD
- SKIN PROBLEMS
- MINOR ILLNESSES HAVE A HIGHER IMPACT
- HIGHER FREQUENCY OF GETTING SICK
- REPEATED INFECTIONS

# WHAT IS AN IMMUNE SYSTEM?

Immune system is our body's defense against infections.

It helps protect us from:

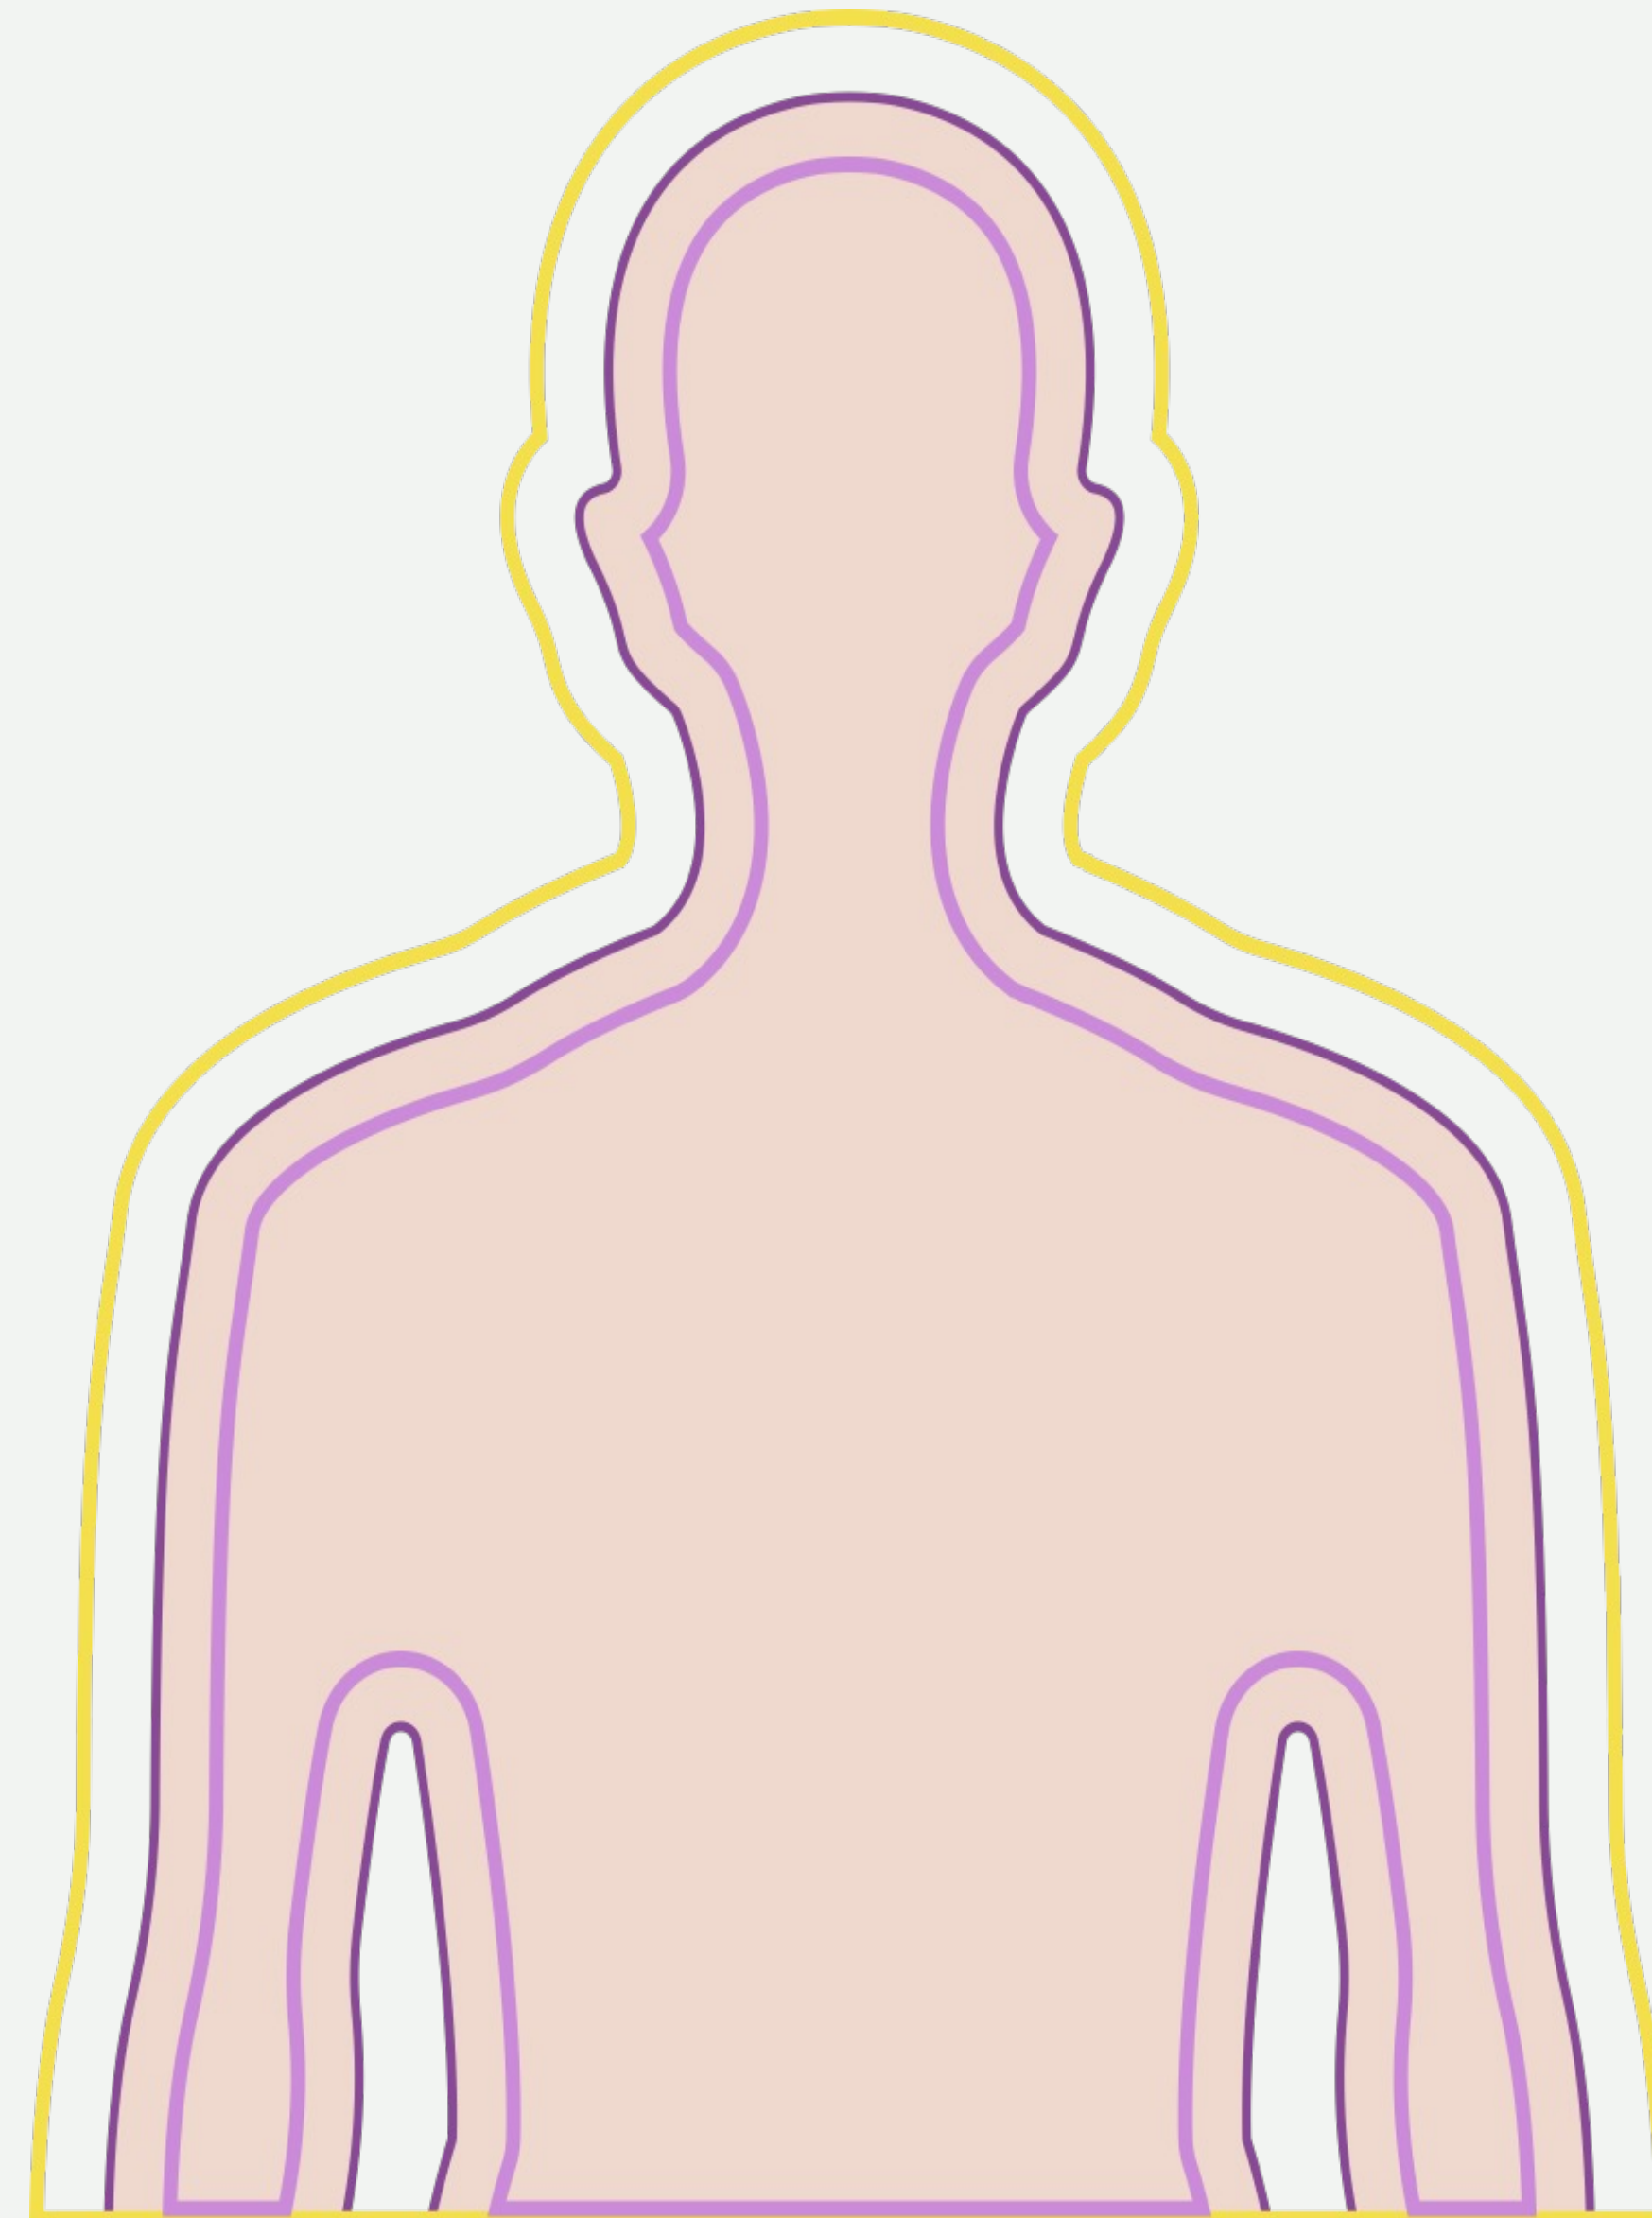

- viruses
- bacteria
- microscopic fungi

# IMMUNE SYSTEM PROTECTS INTERNALLY AND EXTERNALLY

The immune system not only fights against external threats to your health, but also repairs the body's cells and molecules when damaged.

It can even recognize damaged DNA

# WHERE ARE IMMUNAL CELLS DEVELOPED

T- and B-Lymphocytes are white blood cells which are critical to the immune system. These cells are created in our bone marrow, making it a vital part of our immune system. They are also significantly present in the Thymus.

THE FOLLOWING ARE ALL A PART OF OUR IMMUNE SYSTEMS:

The skin is a vital part of our body to keep out external threats.

Tonsils  
Lymph nodes,  
Lymphoid tissue

Spleen

Appendix

# HIERARCHY OF IMMUNITY

## INNATE (INHERITED) IMMUNITY: THE AUTOMATIC RESPONSES AND DEFENSES

- **Barriers:** Skin, mucous membranes, enzymes, gastric juice. They are surface barriers (mechanical, biological, chemical).
- **Cells:** phagocytes (macrophages, neutrophils, and dendritic cells), innate lymphoid cells, mast cells, eosinophils, basophils are all microscopic allies in the defense of your body!

## ADAPTIVE (ACQUIRED) IMMUNITY: LEARNS FROM THREATS

### T- and B-lymphocytes

- They recognize and remember foreign threats and provide an intense targeted response

# THERE IS ALWAYS WORK FOR THE IMMUNE SYSTEM

In one cubic meter of air, a room can contain 1,500-7,000 and even more microorganisms (depending on the season).

# MANAGE YOUR DEFENSES

## EXTERNAL

Sleep well

Exercise regularly

Avoid bad habits

## INTERNAL

Eat healthy

Taking nutrients and vitamins

Treat chronic diseases

# IMMUNITY PACK

**STRENGTHENS  
PROTECTION**

**ACTIVATES IMMUNITY**

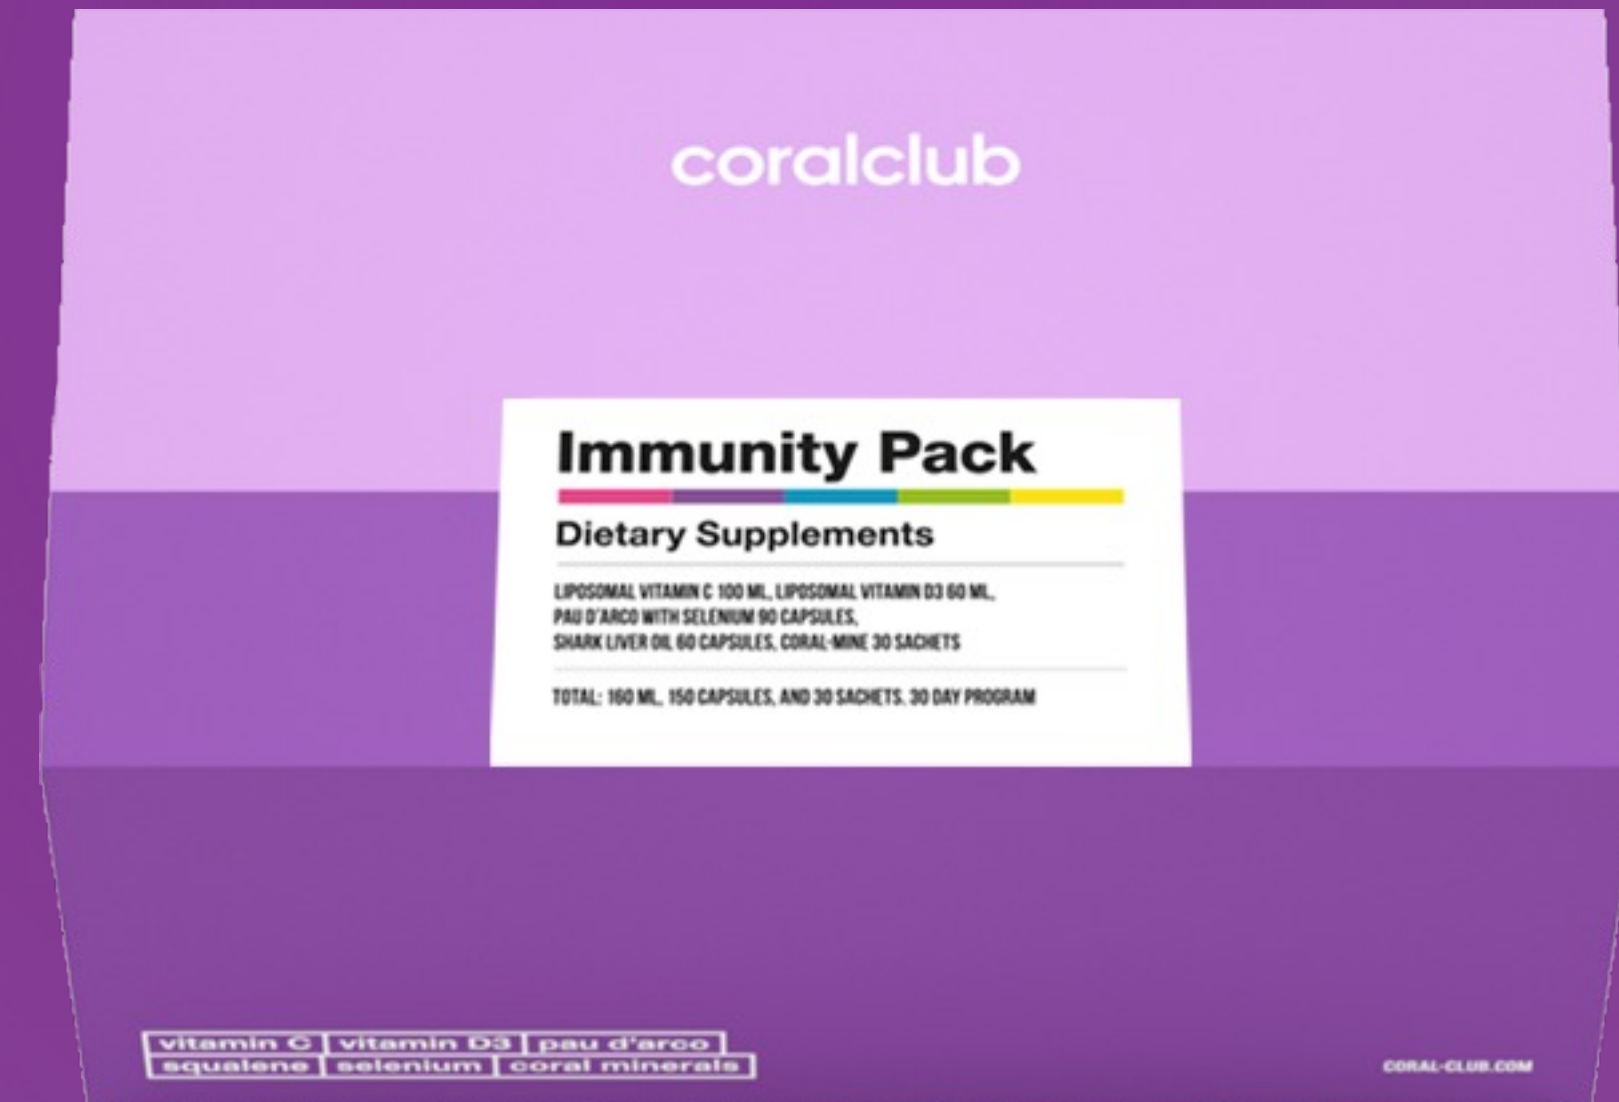

**HELPS SPEED UP  
RECOVERY**

# IMMUNITY PACK

## A SET TO HELP STRENGTHEN YOUR IMMUNE SYSTEM

- 30 day course
- Contains 5 products
- Full of vitamins, phytonutrients and minerals

# IMMUNITY PACK

Liposomal Vitamin C

D-Spray 2000

Paul D'arco with Selenium

Shark Liver Oil

Coral-Mine

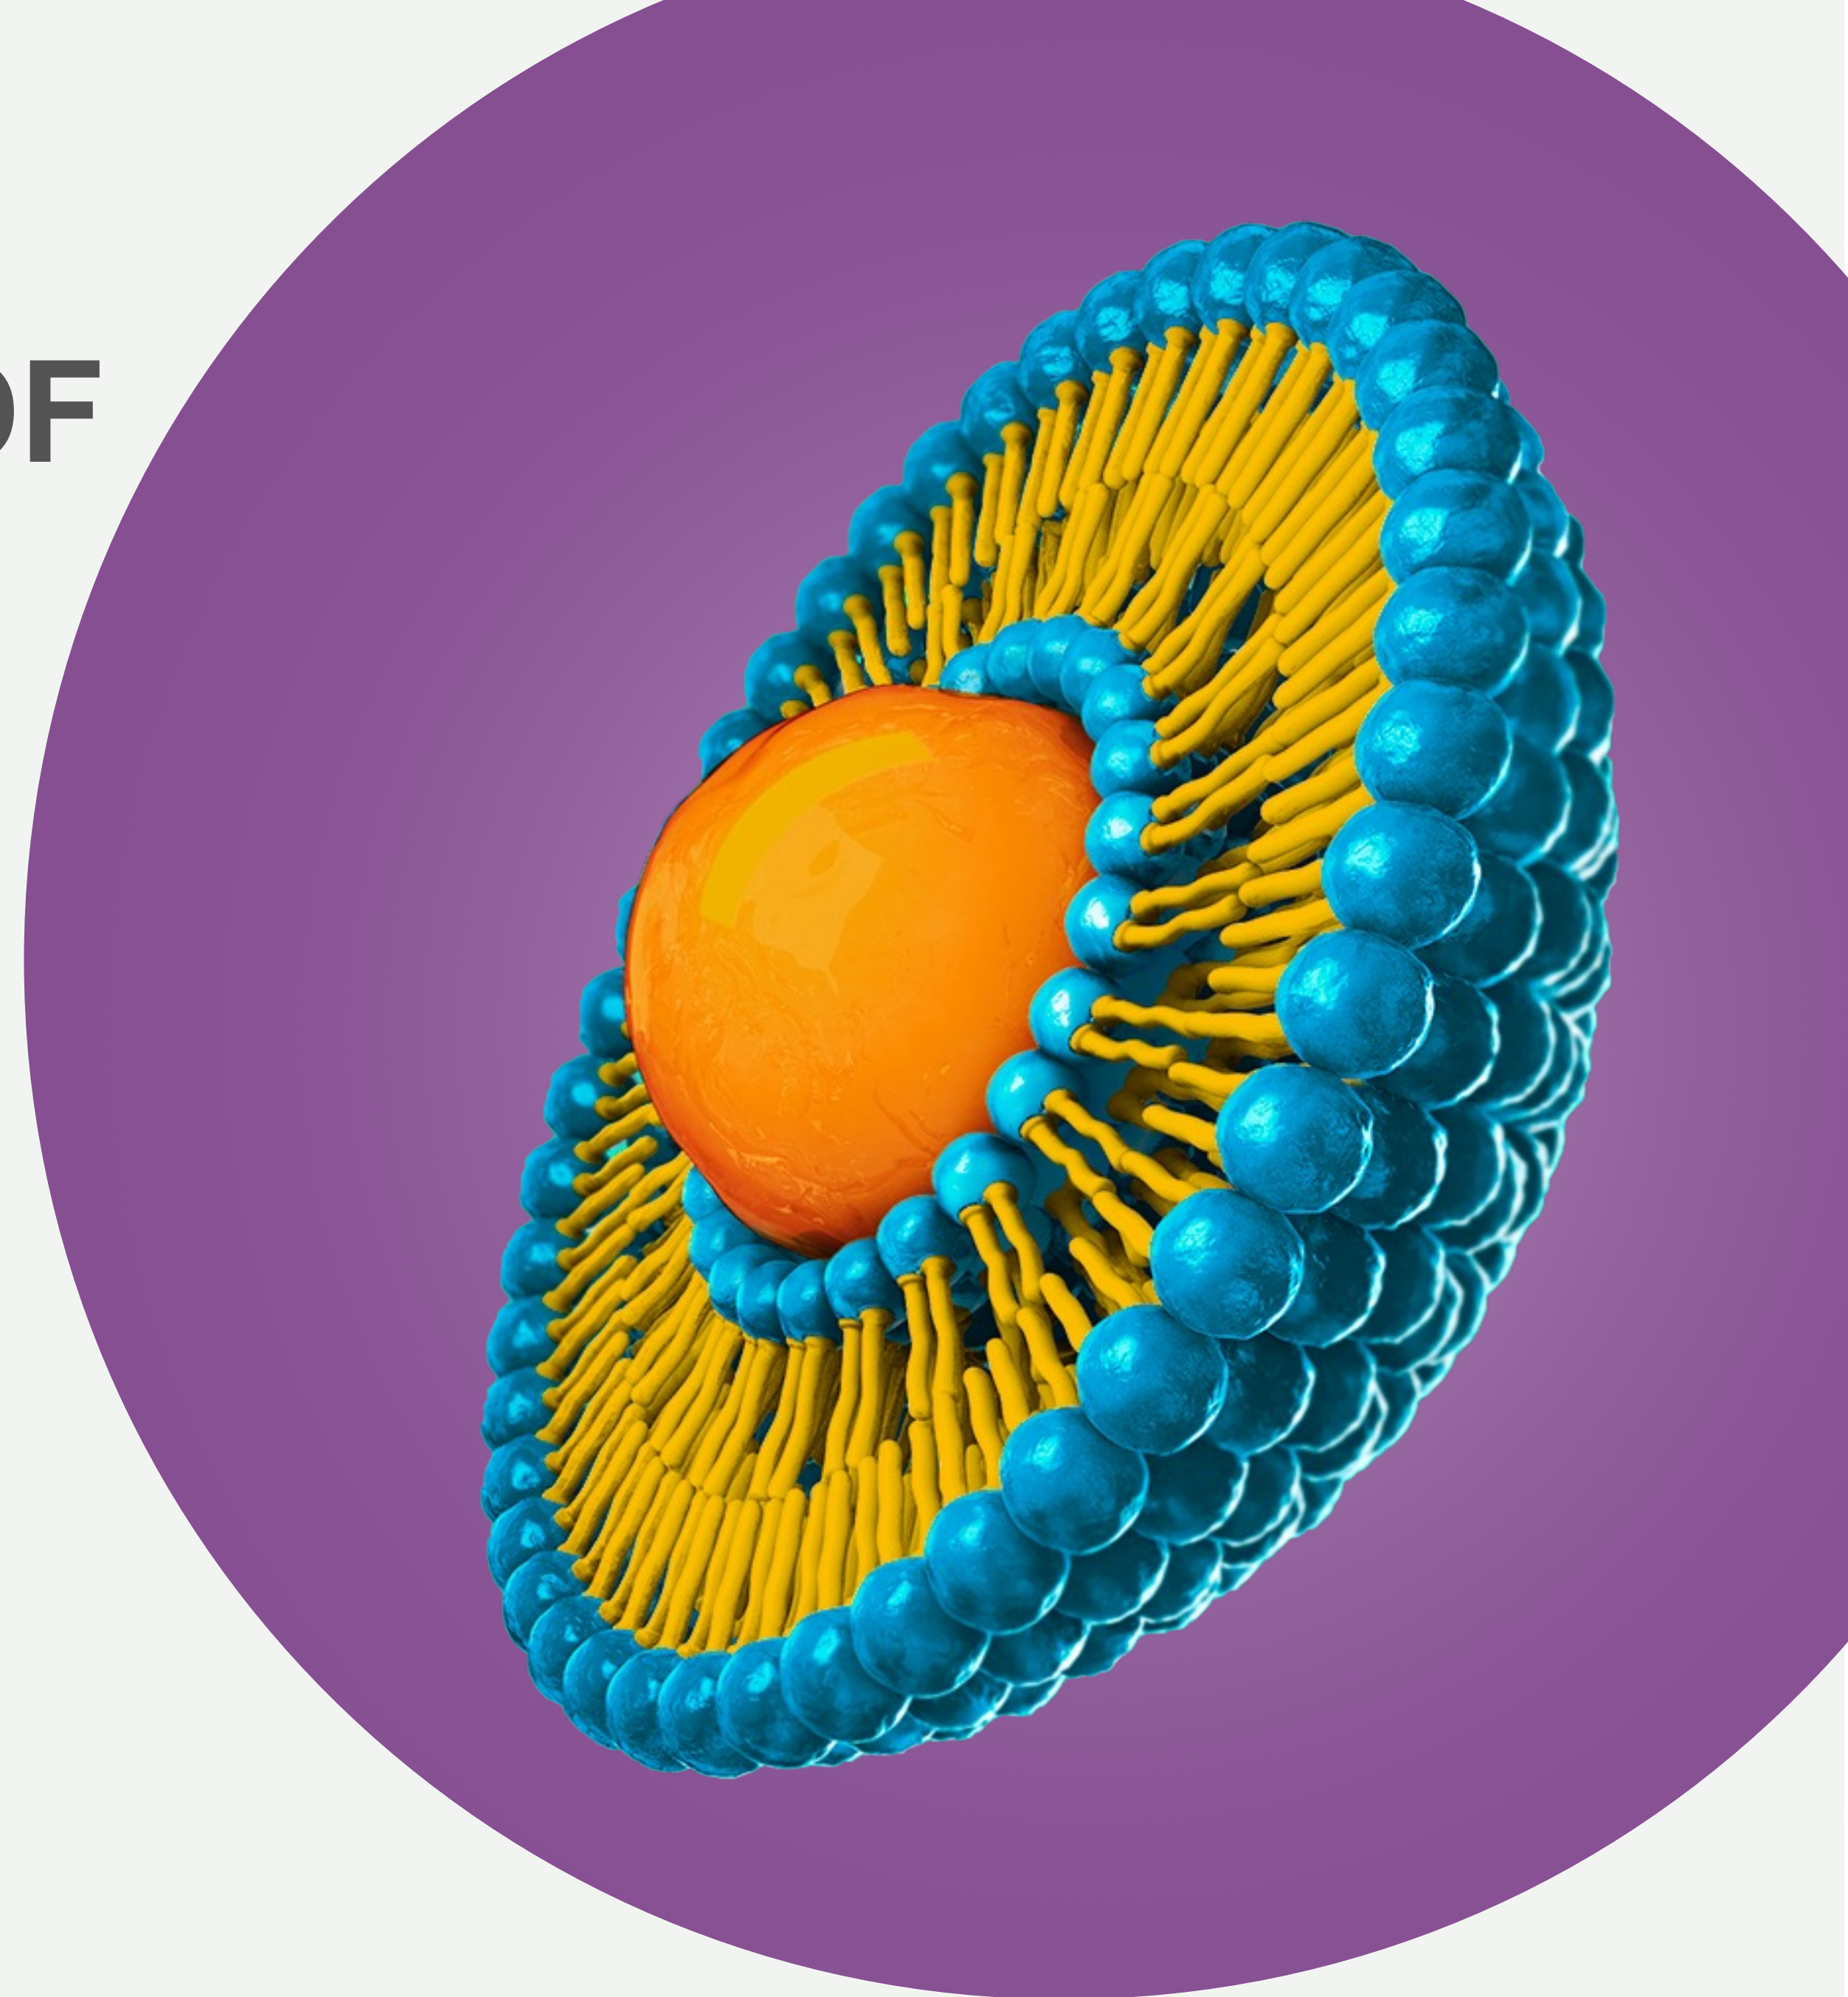

# LIPOSOMAL VITAMIN C FEATURES

- Provides support for the immune system
- Provides protection from free radical damage
- Assists in collagen production – a key protein in our bodies, particularly for the skin
- Protects the body from negative environmental effects
- Excellent source of the antioxidant vitamin C

# BENEFITS OF THE LIPOSOMAL FORM OF VITAMINS

- The liposomal products have high concentrations of the key ingredients
- The liposomal membrane protects the ingredients and prevents gastrointestinal irritation.
- The liposomal membrane is also an additional source of phospholipids that help protect the cell membrane
- Liposome act as a delivery vehicle for substances to make their way into the body, while preventing premature breakdown in stomach acid

# D-SPRAY 2000 FEATURES

- Provides support to our adaptive immune system, including T- and B-cells
- Supports antibacterial and antiviral defenses
- Helps prevent Vitamin D deficiency. This deficiency may increase the risk of developing autoimmune diseases.

# PAU D'ARCO WITH SELENIUM

Pau D'arco contains Pau D'arco tree bark, Selenium and Vitamin C. These have an array of effects.

Pau D'arco:

- Helps fight bacteria and fungi.
- May help stimulate immune cell activity
- Helps prevent oxidative stress

Selenium:

- Participates in the synthesis of immune cells
- Helps normalize oxidative levels
- Provides immune support

# SHARK LIVER OIL

- Provides cellular support
- Helps protect against oxidative stress
- Promotes healthy skin
- Supports the local and systematic immune response (IgG and IgA immunoglobulins)

# CORAL-MINE

Coral-Mine is a composition made from corals harvested near the Japanese island of Okinawa. This island is also called the “Island of the Immortals” due to the longevity of the residents.

- Enriches water with minerals
- Provides immune system support
- Promotes better hydration
- Helps with signs of aging
- Promotes skin health
- Helps restore water-salt balance
- Helps to support healthy blood pressure levels
